NO. 5 :: LORENA CANAL RUG IN BERBER BEIGE

I seriously love this rug – everything about it is amazing. The color is gorgeous, the fabric is super soft, the dyes used are all natural which means no harsh chemicals smell and its machine washable! I currently have this rug in my office, but I am thinking about placing it in the nursery because it'd look perfect by the crib. I can't wait to get the nursery ready and do a reveal because it's going to look super cute! [[SHOP THIS PRODUCT HERE](#)]

CAMERON'S VALENTINE + LORENA CANALS

JANUARY 30, 2018

Over the weekend, Cameron and I spent some time putting together Valentine's for special people in his life. He has so many wonderful family members, friends, and caretakers that I wanted to send them something special to thank them! Since we have friends and family near and far we will be mailing most of them. Luckily my boy usually obliges to his mommas relentless camera. There's something about the snapping noise that catches his attention and I can always sneak in a few cute photos!

As many of you know, we are in the process of moving so we don't have that much space. Where we are currently living, Cameron has a little area with all of his toys. Since Valentine's Day is right around the corner, I headed to Home Goods to see if I could find a few festive pillows for him! The other item we recently received was this Ombre Dark Grey Rug From Lorena Canals. He is always on the move and the plush feel of the rug is perfect for him.

taking up half the room, not to mention we already had all the newborn gear that we needed... almost.) I still wanted Daphne's room to be different from Olive's Boho feel and more of a Vintage Glam vibe. I was really attracted to black and florals. I fell in love with this wallpaper about a year ago before we were even thinking about getting pregnant, but I knew I had to have it somewhere in the house! Once we were pregnant and waiting to find out if it was a boy or a girl I secretly planned on getting it if baby was a girl and sure enough she was. My heart was set on this dark floral theme and then I found a beautiful vintage pink rug that pulled out the slight pink in the florals of the wallpaper.

Lorena Canals Rug Review

LORENA CANALS: THE MACHINE WASHABLE, NATURAL, SOPHISTICATED RUG.

"IN COLLABORATION WITH LORENA CANALS RUGS, PRODUCT WAS SENT TO ME TO REVIEW, THOUGHTS AND OPINIONS ARE 100% MY OWN."

Home decor and textiles are somewhat of a new obsession for me. I've started putting more time and details into the design of each room in our home, so when it came time to find pieces for the nursery I had a pretty good inspiration board that I was working with. We passed down the crib and changing table from Finn and I really just tried to work from there. I tend to be kind of picky and struggle with making up my mind. #throwing, but after some serious searching, and a few Hobby Lobby trips, I found photos, shelves, lamps, and more to go with my ideas. However one thing I didn't find... the focal point of the room - a rug.

MATERNITY LEAVE MAMA SURVIVAL ESSENTIALS

ABOUT ME

While getting ready for baby number 2 has been a blast, I have also started thinking about what I can do for Miles to make his transition and adjustment easier. We currently have his toys all over our living room and it drives me insane and he doesn't have a space dedicated to him. We are working on converting part of the living room into a play area for Miles that will be all for him but near mama all day while I'm on maternity leave. [Lorena Canals](#) was a total given for me when deciding what rug to get for him to warm up his space. [Lorena Canals](#) rugs are machine-washable and natural and they fit into a standard washer! WELCOME TO MY
corner of the internet

I created this space as a place for me to share these loves and passions of mine; what makes my heart beat and colors my days alive. My hope is that this blog is filled with the realness, the rawness, the beautiful, the heart stirring, gut wrenching, shaky nervousness, slow and pensive, wild and thriving thoughts and moments of LIFE.

*a peek at the nursery + lorena
canals cactus rug*

life

3 weeks into our foster care journey we finally got the nursery all cute and matching 🥰
And then I decided to switch it up with a new CACTUS rug thanks to [Lorena Canals](#)!!!

I had been obsessed with this rug since I saw it when planning our nursery theme. If you know me at all, you know how obsessed I am with cacti, but you also know how obsessed I am with white and basically non-color :). We want to keep it as gender neutral as possible, as we don't know who four many babies will be in and out of this room, but still have a theme we love! So, of course this rug fits in perfectly with my vision for the nursery.

Lorena Canal's Machine Washable Rugs!

These two little words are magic to any mom's ears: machine-washable! And when you learn that about a rug you may just start jumping up and down! Lorena Canal offers trendy, adorable, high-end rugs that have been featured on Vogue, Dwell, People, and many other publications. We are so honored to be given a selection of Lorena's rugs for our cozy home!

For 21 years Lorena Canal designs and creates, has been focused, elevating design and decorating homes with beautiful rugs. 12 years ago Lorena Canal's desire to specialize on children's rugs offering people like me the essentials to enjoy elegant and cozy spaces with all requirements a mother needs for their kids: can we say machine-washable again?!

For Cooper, we chose this baby blue, white and grey color scheme. Cooper's nursery is very neutral, with a lot of white, and I loved that we could add in a pop of boy color along with a few red toys and adorable stuffed animals (like this monkey bear, and the green giraffe (not pictured)). Speaking of which, Cooper's nursery will be on the blog soon!

MY FAVORITE BABY PRODUCTS – TRISTAN 3 MONTH UPDATE

TRISTAN IS OFFICIALLY 3 MONTHS OLD!

I feel like I've been on maternity leave from blogging and not really posting on my Instagram a lot. Its super hard for me to focus on multiple things at a time so of course my main attention has been all about baby. I had to take him to the doctor on Friday (Feb 2) to get his eyes checked out, turns out he's got conjunctivitis :/ but we got to weigh him (my favorite part) while we were there and he is right at 14lbs. He has started to sleep through the night and overall were pretty blessed with an easy going baby. Since he has started to sleep through the night I've pretty much stopped breast feeding.. I'm a little torn on this. I personally was having a harder time with breast feeding him, more for selfish reasons, but now that I've slowed down doing it I'm starting to feel like I'm not ready to give it up. I'm going to try getting more into pumping until I'm ready to make a final decision because I know once my milk's gone I can't get it back! I could go on and on about breast feeding...we can chat more about that later.

A Lunderful Life

Lorena Canals Rugs and Infants

February 7, 2018 Chelsea's Corner

If you are anything like me, then you are always wanting to redecorate. Lately, the newest thing that I am always wanting to do to our home is get new rugs... that is when I came across Lorena Canals Rugs. In my opinion, rugs are the quickest and easiest way to spruce up a particular space. They allow you to give the space a whole new look. Unfortunately, rugs can also make a room look pretty drab because of how dirty they get - probably one the reasons I am always wanting to replace my rugs.

FEBRUARY 16, 2018 12 COMMENTS CASA

Our family room is literally where we live as a family!

You can find us huddled in the morning drinking coffee, snuggling limb to limb or just watching late night TV after the girls go to bed.

This is our first home and it's going on thirteen years! Can you believe that? I mean this is probably our third time changing furniture and almost everything including paint and flooring.

So, what did we do? Yep, we changed things up again!

Hi, I'm Nicole, welcome to my little corner of the internet! I'm a wife married to the love of my life, mama of three girls, saved by grace and I hope to share a little here and there about my beautiful mess and everything in between!

EASY TO CLEAN RUGS — MACHINE-WASHABLE RUGS FOR EVERY ROOM FEBRUARY 18, 2018

Today I am sharing my experience with very easy to clean rugs by Lorena Canals!

When I first heard of Lorena Canals Rugs I thought they were very stylish and eye-catching! But, the more reading I did about them is what really sold me on them...they are EASY TO CLEAN!!!

How are they easy to clean, you ask? They are machine-washable! (insert all the Mom-swooning 🥰) If you have pets or are a parent then this post is for you! I have FOUR inside dogs whom I love very much but who also track in loads of dirt, and mud, and other gross things that I will spare you the details with 🙄 Not to mention that I also have an almost-two-year old who loves to bring her snacks and drinks into the living room (because she is a tiny dictator and runs the show, of course.) So for me to be able to pick up my rug and throw it in the wash is a life saver 🙌 I cannot even tell you how many times we had to throw our old area rug over our barbecue pit and hose it down to get dog vomit off of it 🙄 seriously, why do they only like to do that on carpets and rugs and not the easy clean up hard floor?! 🙄 It's a conspiracy. Back to our old rug...we would have to wait a whole day for it to dry, then dust out dirt and debris before bringing inside to apply cleaner to the spot and scrub it or sometimes shampoo the entire rug. It was a pain in the you-know-what!

Disclaimer: I received this product compliments of Lorena Canals in exchange for my honest review.

5. Make the Rug Last

Area rugs are a quick and easy way to add color, comfort, and whimsy to just about any kid's room. But kids, as we well know, aren't clean machines. [Lorena Canals](#) to the rescue with adorable rugs that are machine-washable, people! By investing once, you won't have to replace it down the road. Lorena Canals Rugs

Before you know it, your precious little new born will be spending lots of time on the floor. Learning to roll over, crawl, and even take their first steps. You start worrying how to keep your floors clean, how do you find time to get a carpet cleaner, so you can shampoo your carpets every other week, so your baby has a clean floor to roll around on. Well, we discovered Lorena Canals machine-washable rugs! They are made with "non-toxic dyes and with 100% natural raw materials, making them safe and healthy for babies and kids to crawl and play on." And you can just put them in your washer at home, and get it clean whenever you need!

These machine washable rugs are so soft, decorative, fluffy, and durable. Our kids love this rug! We lay it out in Gramma's living room, on the wood floor, when the little one comes over. We like to take it outside with us, when its playtime, and the babies need a little more comfort than just sitting on the grass.

creating a place for baby when you don't have space

XO, JUSTINE | FEBRUARY 12, 2018 | HOUSEHOLD, SPONSORED

We've all seen them—the perfect, Instagram-worthy nurseries. This one has the perfect balance of infant charm and sophistication, this one is full of lovely florals without being over the top somehow, this one is a gender-neutral, monochromatic-lover's dream come true. Having recently brought home our fifth baby to our three bedroom house I know that those spaces are not everyone's reality. It's hard when you're a nesting pregnant woman surrounded by these little squares of perfection and you know that you just don't have the space (or maybe you don't have the finances) for the ideal nursery you've always had in your head. *This creating a place for baby post is in collaboration with Lorena Canals Rugs. Although I was gifted product, all opinions are completely my own.*

La firma de alfombras diversifica las posibilidades decorativas que ofrecen los textiles con los que trabaja ampliando su catálogo de productos. Lorena Canals conoce como nadie el poder que tienen los accesorios para transformar los espacios y fiel a su estilo, ofrece en su nueva colección de 2018, una amplia diversidad de ideas capaces de aportar personalidad a toda la casa

Lorena Canals, firma líder nacional en diseño, fabricación y exportación de alfombras lavables, sigue ampliando sus propuestas para el hogar. Lorena Canals siempre ha defendido que un proyecto no está terminado si no cuenta con los elementos textiles necesarios, ya que éstos son los que visten realmente los espacios. Así, en su nuevo catálogo, a las alfombras se suman los complementos para poner el toque final al estilo decorativo.

Con la confección de sus alfombras lavables fuertemente arraigada como método que distingue su trabajo -elaboradas de forma artesanal, 100% algodón natural y responsables con el medio ambiente-, Lorena Canals ha implementado en todos sus complementos el mismo savoir-faire.

A los primeros cojines que lanzó la firma, se han ido sumando poco a poco otros accesorios vinculados o no a las diferentes colecciones que van surgiendo. En su nuevo catálogo para 2018 también se pueden encontrar cestas, colgantes de pared o tapices, guirnaldas, mantas y el original e innovador sky con el fin de enriquecer y ampliar el universo textil de Lorena Canals. Não tenho uma casa de revista, mas...

Mudámos de casa há um mês e meio. Esta já é a nossa casa, aliás, já o é desde a primeira noite, porque depressa a sentimos nossa. Está longe de ser uma casa espaçosa e bem decorada, digna de revista. Trouxemos muito pouca coisa (também não temos muitas mobílias nem grandes pertences de valor), mas cada vez estou mais contente com este exercício: ter o menos possível de tralha em casa, para que nos centremos no mais importante. Até porque, como vos contei no sábado, odeio [limpezas!](#)

No entanto, fiz questão de decorar a sala para o Natal com pequenos detalhes; o quarto delas está lindo, com a caminha em forma de casa verde água e as paredes com autocolantes às bolinhas; no meu quarto impera o branco e está muito minimalista mas acolhedor (e tem uma luz fantástica!); e a sala tem sofá, móvel com televisão, mesinha e cadeiras e pouco mais.

Tips para una decoración BOHO

06 MARZO 6, 2018 06 HOME DECO

¡Hola chicas!

Hoy os traigo unas propuestas para conseguir introducir poquito a poco la nueva tendencia que viene cogiendo fuerza: la decoración boho. Esta nueva tendencia se caracteriza por usar tonos muy cálidos, arenosos, terracotas, que nos irán genial ahora que se va acercando el buen tiempo. Los elementos que la predominan, son a la vez, relacionados con este ambiente más cálido: como los cactus, estampados étnicos, y sobre todo abundan las fibras naturales: el ratán, yute, mimbre, lanas, madera rústica, macramé...

Para ir cambiando un poco, y ya que el finde me bien arriba, decidí haceros un video en youtube en vez de fotografías. Así vamos cambiando un poco. ¿A vosotras qué os gusta más? El formato de fotos en el blog con más texto? o ¿menos texto y más charleta en el video?

Sin más, os dejo el video que os he preparado, ya veréis que tengo una súper ayudante incondicional, y para todas las que me lo preguntéis, los elementos Deco que aparecen son de la marca española **Lorena Canals**. Y si todavía no habéis visto su nueva colección, no tardéis en hacerlo porque hay auténticas monadas.

Espero que os haya gustado, si es así ino os olvidéis de darle al like y compartir! Nos vemos mañana con un nuevo post, esta semana será un poco monotema con la decoración, pero es que estamos en plenos cambios! ¡Hasta mañana!

PLANNING THE PERFECT TODDLER ROOM

**Rug was sent compliments of Lorena Canals. All opinions expressed are my own.*

If you have followed along with our home renovation journey, you have had the opportunity to see some of our designs and projects come to life. What you might not know, is that some of the most exciting of these projects (to me at least) are the ones that have been created more behind the scenes than in front of them. This can definitely be said of our almost two year old's bedroom.

When we bought our home last October it had wall to wall beige carpet that we quickly tore out before refinishing the hardwoods. Up until this point, the floor in our youngest's room has remained

A RUG MAKES THE ROOM

MARCH 2, 2018

I'm a firm believer that a room is not complete without a rug. Rugs pull things together and serve as an anchor. Their style sets a tone and can say a lot about who you are. They can be playful and colorful. Neutral and muted. Textured, shaggy, smooth, soft, natural, the possibilities are endless.

Our living room rug is the center of our home. We spend countless hours sitting and playing with blocks, reading books, and watching Curious George on our rug. It's the place we have tickle fights, dance parties, snuggle ups, and snack time. We LIVE on our rug. I knew when I started searching for rugs for our new home that it would have to be something that could hold up with all that living.

WHEN LIFE HAPPENS

I always wish I could be that mom, that has the house perfectly cleaned, organized, and picture perfect every day. But I'm far from it, in fact, I was far from it even before kids. Some things I'm really organized with, most things, I'm a complete mess. I have tons of drawers in my house that are now "junk" drawers, fairly sure they only spend about a week organized before I start hiding things in them before company comes over. My laundry room is always overflowing with dirty clothes, my bedroom dressers tend to have the last weeks clothes piled up on them that I have yet to return to my closet, and let's not even talk about my closet (I can't even step a foot in it right now).

I do beat myself up for not doing more, and of course comparing myself to the women that do seem to always have a perfectly organized and pristine home. But something that I am is fun, and resourceful. I spent my free time hanging out with my boys and I know in the years to come, they won't say, wow our home was so clean, instead I hope they will say, wow we had so much fun with mom!

MY FAVORITE "MUST HAVES" FOR YOUR BABY REGISTRY

Everyone has their go-to baby items that they think everyone needs. I've been enjoying getting advice and recommendations from you guys as well as friends and family on the items that I just HAVE to HAVE for when baby girl arrives. I feel like there are so many things that I didn't know that babies need. And so many things that make your life easier as a parent of a tiny human. Honestly, I'm still really lost on most of what it takes to take care of a child, but I have done my research on several items and I wanted to share those with you guys today. So, here is my favorite "must have" for your baby registry.

I've mentioned before that my little sister is the QUEEN of research and she constantly sends me brands and products that she thinks I need for baby. But here's the thing, I'm planning on being as minimalist with the baby gadgets as I possibly can. I respect the momma who allows her house to be overrun with baby swings, cribs, strollers, and the works but I just don't think I could stand it. I live by the motto "a place for everything and everything in its place" and I don't do well with clutter. That being said, I'm being super picky about the items that I buy for baby (see clothes... you can never have enough of those). But these 4 brands and the items I've suggested from them were definitely must-haves for me.

FRIDAY, MARCH 2, 2018 NURSERY THEME WITH LORENA CANALS

Stylish, natural, functional, washable. These aren't words that typically all describe an area rug. But those are exactly the first three words that come to mind when thinking of [Lorena Canals](#). I learned of these magical rugs when I was pregnant with Fallon and had to have one for her nursery. We actually tested out the washable quality long before we imagined when something spilled while setting up her room. A sugary orange drink was spilled right on the pretty little pristine white stars on baby's brand new rug. Everyone sort of panicked until I said it's washable! The orange was long gone before Fallon was born and that rug still looks brand new.

When I was thinking about a nursery theme for baby #2 I just couldn't quite come up with anything I loved that was gender neutral. We've chosen not to learn the sex of our baby, like we did with Fallon, until he or she arrives. And then I was shopping for something else one day and it hit me. A bit of a minimalist, understated take on the classic jungle theme. Black + white with some pops of green. Yes, that was it. White walls with black accents would be perfect! So, you bet I was excited when [Lorena Canals](#) was kind enough to send us a gorgeous [black bereber rug](#) with tassels that was exactly what I wanted. I love that they have options for any room in your home and that can transition from nursery to toddler room and beyond.

Hi! I'm Hillary, married to Chris and mama to 6 furbabies, 2 turtles and a human baby girl. I love peanut butter, vanilla scented everything and iced coffee. Thanks for following along on our adventures!

LORENA CANALS WASHABLE RUG REVIEW

This room was actually Olivia's first bedroom in this house. It will always be special to me because of that. When Jack was born we decided to go ahead and move both of the kids upstairs to new rooms and this room sat empty for a while. It is right off the kitchen and prime location in our home so I knew we could make it something fun again!

A TEMPORARY PLAYROOM

March 14, 2018

If there's anything I learned this winter, it's that we need a space to make a mess! Am I right or what? As winter was in full swing, I wanted to create a small space for all of Chesters toys and a place that I could get on the floor with him and play or even hop on a cozy and get some work done.

A washable world with Lorena Canals

3/29/2018

People and pets mess up rugs!

I have this dirty little secret. But I'm not ready to divulge it quite yet. First, I want to introduce you to Lorena Canals...a company I spotted after I spotted all the dirt and grime on my pillows and rugs. It was their botanic plants rug that caught my eye. Just my style. Fern fashion marries lush luxury. Then reality set in. People and pets are messy. Rugs get icky. Just being on the floor and all, life happens. If you've ever had a small dog then you know exactly what I'm alluding to. Or kids. Or a baby. Have you ever spoon-fed a 10-month-old baby sweet potatoes on a carpet just for fun? Bad things happen to good rugs. Then I unearthed Lorena Canals and became smitten when it hit me that their rugs and pillows are machine-washable. So many thanks to Lorena Canals for sending me the botanic plants rug and a pillow to review to help me "fern-ish" my style. Worst. Joke. Ever. Seriously, how have I lived so long without them? And are you ready to hear my secret?

Hi, I'm Laura and hail from Buffalo, NY. I consider myself a lifelong learner who loves gardening with a 360 degree view. Thanks for stopping by!

Mornings with Olivia and Lorena Canals Rugs

BABY LIFE, MOM LIFE, MONTOGRAPHY

I received product compliments of Lorena Canals Rugs. Opinions are my own.

One of my favorite parts of each day is the morning, between 8:30 and 9:30am. I am actually a morning person (where are my fellow happy early rise mamas!!) and the mornings get busy with getting Solomon ready for school and my husband Gary leaving for work.

PLANNING THE PERFECT TODDLER ROOM

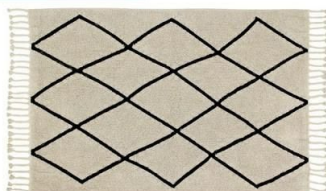

**Rug was sent compliments of Lorena Canals. All opinions expressed are my own.*

If you have followed along with our home renovation journey, you have had the opportunity to see some of our designs and projects come to life. What you might not know, is that some of the most exciting of these projects (to me at least) are the ones that have been created more behind the scenes than in front of them. This can definitely be said of our almost two year old's bedroom.

When we bought our home last October it had wall to wall beige carpet that we quickly tore out before refinishing the hardwoods. Up until this point, the floor in our youngest's room has remained

Diseño intuitivo. Nos fascinan las formas orgánicas del nuevo sofá Flot de Pier Bion, que cambian las curvas asimétricas con la estructura visible de bronce. La nueva versión de copos que parecen flotar es el modelo Clay de mismo diseñador.

Un viaje a los años 70. El estampado degradado pop-art de esa década inspira la colección Tie Dye de Lina y Camila, al igual que corresponde en el alfombra elaborado con algodón 100% natural.

Libertad para componer. La serie de sofás Okome con tacto diseñados por Harido para Alas, por tener su versión más compacta para salones. De líneas redondeadas y formas suaves, las combinaciones de asientos, respaldos y cojines son casi infinitas.

TEMPANO DE HIELO. Como una isla flotante, el sofá Floe Insel de Patricia Urquiola para Cussinam, está inspirado en los icebergs a la deriva y muestra sus ángulos y volúmenes en un sugerente tono azul.

Luz de la realidad. Esta lamparita se llama Flote y no podía ser de otro modo con ese colorido de flote que imita las plegadas de los cuernos de los cuernos de Chapo & Mochelero Roche Robots.

judyandju Madre mía del amor hermoso lo que voy a disfrutar es de nuestra alfombra LAVABLE (dato importante si tienes en casa pequeños pintores-obreros-experimentadores llamados niños) de @lorenacanalrugs y así... entrando el sol por la ventana a estas horas! Esto da gusto!!!! Días más largos, eso sí!!!...sales del cole, y cargas con dos chaquetas gordas que le has pero por la mañana, dos buff del cuello, chaqueta fina por si hace viento de los dos, dos mochilas y botellas de agua... vamos un poco de todo "porsi" ... ah y mudas del tete, que por ahora no han hecho falta porque cero escapes! Así que después de toda la carga...una está deseando tumbarse en el sofá!!!! .

Buenas noches 🌙☺️ .

Lorena Canals: Nueva colección Bereber 2018

Elegancia y colores vibrantes en la nueva colección de Lorena Canals. Los colores fascinantes de Marruecos y los motivos bereber son los protagonistas de la nueva colección Bereber de la diseñadora que tiene como novedad alfombras de tamaños más grandes que las actuales y nuevas técnicas de producción con las que se mezclan texturas y grosores en una misma alfombra.

Lorena Canals presenta su nueva colección Bereber que incluye cinco nuevos modelos de alfombras con cestas, mantas, accesorios de pared y cojines a juego. Todos ellos inspirados en los clásicos motivos bereberes con formas tribales y colores vivos. Una colección confeccionada de forma artesanal, en 100% algodón, con tintes y texturas naturales, y con una nueva técnica de producción que juega con diferentes texturas y grosores para conseguir alfombras más ligeras que, aun aumentando su tamaño para adaptarse a ambientes más grandes, siguen pudiéndose lavar en casa.

En el modelo Crisscross destaca el algodón en su color natural sobre el que se han tejido rombos irregulares de hilo de color negro persiguiendo una asimetría en el diseño. Cada uno de sus extremos quedan delimitados por una línea -de color negro en uno de ellos y burdeos en el otro- que da paso a la base de la alfombra rematada con flecos.

Ciudades marroquíes de colores intensos como la ciudad de Assa, Menkes y el valle del Draa dan nombre a las alfombras Morocco, inspiradas en los clásicos diseños árabes con formas y colores vibrantes sobre una base negra, petróleo y fucsia.

En el modelo Burgundy se ha buscado el juego de texturas. Sobre una base del color del algodón natural se ha aplicado, con la técnica del loop, hilo de algodón en color natural y, sobre éste, se han tejido rombos y cruces en color burdeos. Los extremos, rematados por trenzas, consiguen un aspecto informal al mismo tiempo que elegante y personal.

Rhombos sorprende por su elegancia y toque femenino. Un diseño en el que el fondo de color natural del algodón se combina con hilo en negro creando rombos y espigas. Ambos extremos muestran la base de la alfombra con bordados en color negro rematados por flecos. Un modelo ideal para ambientes actuales, desenfadados, de estilo nórdico y atemporales.

Ethnic es el modelo más especial de la colección. Sobre el fondo de color natural del algodón se mezclan rombos irregulares y detalles étnicos en hilos de colores negro y lino con ambos extremos rematados con flecos.
