SELLING TIPS

- Lorena Canals not only offers washable rugs, but all the necessary complements to complete any home decor.
- The storage baskets have become one of the most important product categories, thanks to the huge variety of designs launched. These baskets are increasingly a must for interior design and home decor.
- Their varied shapes and sizes make these baskets a decorative, yet functional element for any space in the home: bedrooms, halls, bathrooms, kitchens, gardens and terraces, etc.
- Every single basket has been designed as a part of a collection of rugs, but their easily combinable designs make them them the perfect accessories for all environments.

- From iconic designs to essential basics, the Lorena Canals baskets are designed to store all sorts of objects, such as toys, magazines and books, clothes or shoes, among many other uses such as a flowerpot.
- In keeping with the flowerpot motif, Lorena has designed 3 clay-colored pot-shaped baskets, which are sold in a pack of 3 in different sizes: large, medium and small.
- Lorena Canals has also launched new baskets in the form of a ceramic bowl, with an irregular shape and small opening.
- Another novelty is the smaller baskets (Mini Tricolor and Dual Black), which are part of the “My Little Ones” Collection. The smaller designs are perfect to store small objects such as keys, pens, coins, etc.
- Our Tray Baskets are handmade from mixed fibres of various colours and cotton balls stitched to the exterior. These can be used as a trendy tray or as a home decor accessory.
- Made with natural and recycled cotton, these baskets are made using artisanal techniques that allow our craftsmen to create a wide variety of shapes, giving versatility to the product.
- Being a handmade product, small differences in color and shape can be produced between the different designs, resulting in unique pieces. No two are the same.
