## SELLING TIPS

- The new Back to School Collection has been inspired by **iconic retro school designs** that make everyone look forward to go back to school. In there collection has four basic concepts: math, maps, school essentials, and numbers through rugs, cushions, wall decor, garlands, blankets and baskets.
- It's a perfect collection for **curious childs** with a craving for study.
- Making kids love math is a challenge to most parents. This collection will help us to **make math fun** and help kids remember numbers visually from the earliest age.
- The **mixture of colors** in Baby Numbers and I Love Maths rugs of the designs gives an effect of chalk writing.
- The classic Lorena Canals worldmap rug has been renewed with a vintage look in the new Vintage Map with continents and oceans identified, in **soft natural vintage colors**. For floor and wall!
- The new Canvas Map is the ideal **replacement for boring paper map**. You can write on it, pin flags of different countries, everything you can think of and much more! And it's also washable.
- You can place these rugs **on the floor** or hang them **on the wall**.
- Not only thinking of children's rooms, the designs on this collection will give a **retro look to any corner** of the house.
- There's a wide collection of **accessories to match with** the rugs: blankets, wall decor, cushions, baskets,...
- The Back to School Collection is our **tribute to all these kids** who are part of our **Sakūla Project**.
- Washable cushions with removable cover and zips: eraser, ruler, ABC, counting frame... **basics for school!**
- Pencil shape-like **baskets available in two sizes small and big**. Made from cotton rope and with a lid to carry pencils, toys or school supplies and keep everything clean and free of dust.
- **Garland School** is little handmade cushions sewn one by one. Ideas to decorate your wall. Counting frame cushion: all in one toy and cushion. Made of cotton strings with mobile pom-poms.
- Baby Numbers rug and wall decor bringing to life a **new shade of grey**, specially handcrafted for this piece, this rug will help kids remember numbers from a young age. Embroidered numbers are sewn in a similar color to the rest of the rug resembling a pink shade of chalk writing on a blackboard. Both of them have lovely fringes.
- Our lovely math rug, in a perfect mix of white and green tones, highlights formulas and mathematical expressions are written on a blackboard like green background, **simulating chalk**. It combines perfectly with our little plus cushion.
- The design of Notebook rug is created resembling a **classical lined sheet of paper**. It comes with a blanket in the same design, ready to start writing your own story.
