SELLING TIPS

- With this collection, Lorena Canals wants to pay tribute to cotton, the material with which she has been working for more than 20 years to make her rugs and home decor accessories.
- Thanks to its versatility, its softness and the warmth it brings to any room, cotton perfectly represents the values associated with Lorena Canals, such as craftsmanship and her commitment to safe guarding the environment.
- Natural cotton is cool in summer and warm in winter, so these rugs are the perfect accessory for any season of the year.
- With these rugs being washable, we have been able to work with light colors, such as white, light grey and linen tones, which bring simplicity and elegance to home decor.
- This collection transports us to endless cotton fields, thanks to its soft tones and variety of textures.
- As well as being ideal for children's rooms, this collection will also fit beautifully in other rooms, like bathrooms, halls, living rooms, etc.
- In addition to the 3 washable rugs, this collection includes several accessories such as cushions, baskets and garlands which match all of the designs. Tribute to Cotton contains everything needed to decorate any room.
- For the rectangular rugs, Lorena Canals has experimented with different heights and textures to give volume to the details, such as cotton balls.
- In some designs, different shades of color have been used in the same stitch, giving a "mixed fibres" effect and a more realistic design.

SELLING TIPS

- For the first time, Lorena Canals launches a new type of cushion with the Cotton Boll design, which has a shirred closure on the top.
- This collection includes a matching garland to hang on the wall, made up of hand sewn "cotton flowers", with a white cotton tassel and linen canvas leaves.
- New sewing techniques have been used to create the new baskets from this collection. One of the designs, made from mixed fibres of various colours, has cotton balls stitched to the exterior and it's shape is such that it can be used as a tray. The other design is spherical-shaped, simulating a cotton ball, and it can be used as a flowerpot, among other things.
- For the first time, we offer smaller baskets and different shapes, which allows them to have many more uses.
- All designs from this collection combine beautifully with the Air Dune White blanket (Early Hours Collection), the Bubbly Light Grey blanket (Bubbly Collection), the Hippy Stars Natural blanket (Hippy Stars Collection) and other accessories such as: natural and light grey Tassels baskets, Early Hours natural cushion and pouffe or the Cotton and Earth natural wall hangers.
- As we have used soft tones and a simple color scheme, this collection is very easy to combine with other accessories or decor styles.
