SELLING TIPS

- The newest home collection reflects those **alluring morning skies** with fascinating colors that early hours bring to us and we can see reflected in the air, earth and water of Nature.
- We have introduced three new colors: Alaska Blue, Savannah Red and Canyon Rose.
 Alaska blue: different tones of blue from navy to "añil".
 Savannah Red: combination of reddish tones from burgundy to wine, adding some green.
 Canyon Rose: different tones of pink and ash rose.
- Good for **both floor and wall**, these rugs will definitely add a chic bohemian look to any room.
- Air and Earth designs highlight a handmade pattern over a **simple canvas base**, which allows us to produce **bigger sizes** that still fit in a washing machine.
- This collection of rugs and accessories fits beautifully in any home decor, both for **children and adults**.

AIR The mixture of **different sewing techniques** provides these designs of **several textures** and thicknesses, featuring stripes and fringes on a canvas simulating the sky, clouds and the early air.

EARTH Zig Zag of lines in different tones representing mountains and hills over our canvas base.

WATER These rugs express our **passion for Nature and Art**. Looking like an artwork itself from the **abstract painter Rothko**, the Water designs add that all important touch of class that is certain to impress and will create a focal point in any room or house. They have been inspired by the oceans, lakes and seas around the world.
